

**2'-8" x 2'-8" ROOF CURB
TYPE 'A' BLDG.**

PRODUCT DESCRIPTION

2'-8" x 2'-8" ROOF CURB

The 2'-8" x 2'-8" roof curb shall be constructed of minimum 18 gauge galvanized steel. Minimum height of curb shall be 4" above the roof panel rib. All flashings shall be provided to ensure water tightness.

All roof curbs support members are constructed of minimum 14 gauge steel.

Optional hatch or cover is available.

NOTES:

1. - Interior clear height of building may be affected.
2. - Refer to roof plan for exact size.
3. - Location is determined in field.
