

**2'-8" x 2'-8" ROOF CURB
S - TYPE BLDG.**

PRODUCT DESCRIPTION

2'-8" x 2'-8" ROOF CURB

The 2'-8" x 2'-8" roof curb shall be constructed of minimum 18 gauge galvanized steel. Minimum height of curb shall be 4" above the roof panel rib. All flashing shall be provided to ensure water tightness.

All roof curb support members are constructed of minimum 14 gauge galvanized steel.

Optional hatch or cover is available.

NOTES:

1. - Interior clear height may be affected.
2. - Refer to roof plan drawing for exact size.
3. - Location is determined in field.
